Figma

PROJECTS

GREY COUPONS

A coupon savings app that provides discounts on Amazon products.

Tech Stack | Front-End Repo **|** Back-End Repo   **Role:** Full Stack Developer

React | Node | Google Sheets API | PostgreSQL | Git | Notion | Trello | Figma

• Increased data input speed by implementing Google Sheets API to back end.
• Remotely worked with a development team to finish app in six weeks.
• Organized agile iterations, and burn up/down charts to meet launch date.
• Built reusable front end components for client-side scripting.
• Created front end animated Lottie animations utilizing Adobe After Effects.
• Worked with back end developer to debug, create, connect & modify endpoints.

POPPY CENTRAL

A banking application to quickly generate banking PDF documents for clients to sign.

Tech Stack | Front-End Repo **|** Back-End Repo   **Role:** Full Stack Developer

Python | Flask | PyPDF2 | React | Redux

• Communicated with various stakeholders on project needs, troubleshoot, and provide solutions for scope of the project.
• Presented finished product for approval, and implemented to banking institution.
• Implemented python PDF library to accomplish custom data input to documents.
• Learned Flask in a short period of time to quickly build the back end.

EMPLOYMENT

LEDGERFIRE   Remote
Software Engineer   Nov. 2019 to Current

• Implemented server side connection to Plaid API library, and client auth flow.
• Collaborated with the CEO to develop content strategy, understand and implement Ledgerfire's proprietary formulas.
• Architected back end to calculate user financial data to create REST API.
• Remotely worked with a UX/UI developer to design, prototype, and build wireframes for application.
• Organized and created stand up meetings for team and board members for updates.

POPPY BANK   Santa Rosa, CA
Senior New Accounts   Nov. 2017 to Current

• Communicated with customers by asking questions, building rapport, and maintain exceptional customer service.
• Brought in new business to meet quarterly branch goals, while implementing retention techniques.
• Collaborate with team members to support operational branch duties, provide support and training to branches that are in need of staffing.
• Provide coaching and training to new team members in operations, and daily duties.

WELLS FARGO   Novato, CA
Personal Banker   Dec. 2014 to Nov. 2017

• Planned, and oversaw weekly platform goals, and metrics to ensure we are on track.
• Supervised team members, and oversaw daily operational duties.
• Awarded STAR Champion for providing consistent 5-star customer service, and providing leadership support.
• Managed and coordinated outreach efforts to bring in new business.

EDUCATION

LAMBDA SCHOOL   Remote
Immersive Full Stack Development   Nov. 2018 to June 2020

Studied Computer Science fundamentals, collaborated in teams to build, break, and rebuild software applications through a product cycle.

SONOMA STATE UNIVERSITY   Rohnert Park, CA
B.A. Psychology   Aug. 2012 to June 2014

Studied the psychology of peak performance, and the practical skills to create a positive working relationship with individuals, by asking the right questions, and listening.
